

# ARC

MANUFACTURER: Blå Station | DESIGNER: Stone Designs

Arc acoustical tiles reduce noise and control sound in an artful, modern way. Arc tiles are as beautiful as they are functional, boasting an NRC rating of 0.65. Eco-friendly, the polyester-formed felt consists of recycled plastic (PET) and is available in a range of neutral colorways. The acoustical tiles are also available with a variety of wool coverings. Arc can be arranged vertically or horizontally, and each panel has magnetic backing for easy installation. Arc is 100% recyclable and made with 50% PET recycled plastic. Hemp colorway option - 70% PET recycled plastic and 30% natural hemp fiber.
