

GAIA [guy-yAH]

MANUFACTURER: Blå Station | DESIGNER: Stone Designs

Gaia acoustical tiles control sound while providing dimensional wall art. The sculptural panels were designed to rotate, creating an infinite range of possible combinations. Gaia panels are eco-friendly, made with 50% recycled plastic (PET) materials, and are 100% recyclable. Available in a range of neutral colorways, the panels are also offered with various wool coverings. The Gaia tiles have magnetic backing for easy installation and boast an NRC rating of .7. Hemp colorway option - 70% PET recycled plastic and 30% natural hemp fiber.
