

# INSTALLATION GUIDE WOODWORK

## Follow These Steps:

1. Assemble the steel plates on the pedestal. Make sure to tighten the bolts hard. The bolts will have to be re-tightened over time.
2. Fasten the tabletop to the pedestal.
3. Attach the rims on the gables by inserting the rim sprints (a) into the legs, thread the thread sprint (b) and put in the wooden dowels in between. Attach the rims and fasten them by the nuts (c) Tighten the nuts. It may need to be tightened over time.
4. Attach the wooden dowels (d) into the rim. Put the tabletop on and use the screws (e) to fasten the top.
