

BAR, NEW YORK

The purple-hued bar is inspired by New York's nightlife, while select interiors draw upon the brand's Scandinavian roots. The SNS Bar is intended to be a hub for community, great music and a landing spot for New Yorkers and all its guests who want to have a good time. The modular seating system BOB is incorporated along the walls and as an island.

Product: BOB

Design Firm: Bofink Design Studio / Jenny Askenfors
